MASSACHUSETTS CONRAD 30/J-1 VISA WAIVER PROGRAM POLICY

Federal Fiscal year (October 1-September 30)

Program Overview

The Massachusetts Department of Public Health (DPH), through the Conrad30/J-1 Visa Waiver Program, is committed to supporting employment requests for J-1 visa physicians in sites that have a history of serving the Commonwealth's medically underserved populations. The Conrad 30/J-1 Visa Waiver Program is implemented in accordance with the authority of Section 214(l) of the Immigration Nationality Act. This law permits DPH to assist health care facilities located in federally designated medically underserved areas and that treat patients who reside in federally designated medically underserved areas with physician recruitment by supporting J-1 visa waiver requests. The Health Care Workforce Center administers the program for DPH.

Federal law authorizes DPH to support no more than thirty (30) J-1 visa waiver requests per federal fiscal year (October 1 - September 30). The Health Care Workforce Center will begin accepting applications in October of each year. From October 1 – December 31, applications for both primary care and specialist positions will be accepted. Applications must be postmarked no later than December 31. We anticipate that reviews will be conducted in January and notifications sent by the end of March.

If Massachusetts does not fill all 30 slots according to priority criteria in the January review, the program **may** open for additional applications and a second round of reviews. Should the program have an additional review session, those eligible applicants that were not supported in the January review will have the option of having their applications reviewed again.

The Massachusetts Conrad 30/J-1 Visa Program prioritizes primary medical care, psychiatry, and services provided in designated federal Health Professional Shortage Area (HPSA) or Medically Underserved Area/Population (MUA/P), with some limited exceptions. Applicant agencies or employers must accept public insurance and offer discounts to low-income and uninsured patients on a sliding-fee scale that at a minimum follows the federal poverty level guidelines (see <http://aspe.hhs.gov/poverty/>).

The decision to support a waiver request is at the discretion of DPH. Those requests that are supported will be forwarded to the U.S. Department of State (DOS) Bureau of Consular Affairs, which reviews and recommends the J-1 visa waiver applications to the U.S. Citizenship and Immigration Services, who ultimately makes the final determination. Copies of the support letter from DPH will be e-mailed to the physician, employer, and legal representative as appropriate.

After receiving U.S. DOS approval, the physician must seek an H-1B visa before beginning employment. DPH plays no role in this subsequent step.

Note that the Health Care Workforce Center does not offer assistance with placing physicians in suitable employment.

The guide includes criteria for the Massachusetts Conrad 30/J-1 Visa Waiver Program and the steps and paperwork required to apply.

Eligibility Criteria

DPH considers requests for support of J-1 visa waivers that meet the following conditions:

Employing Agency

- The application must be submitted by the employing health care facility or agency, not individual providers. The employing agency must submit a letter requesting that DPH act as an interested government agency.
- The employing health care facility or agency must accept public insurance and offer discounts to low-income and uninsured patients on a sliding-fee scale that at a minimum follows the federal poverty level guidelines (see <http://aspe.hhs.gov/poverty/>).
- Applicant agencies that are community health centers, hospitals with high federally qualifying disproportionate share percentages, critical access hospitals and other small rural hospitals, community based behavioral health care organizations, or have a high percentage of other government and free care payers or demonstrate other measures of high utilization by underserved populations will receive priority as placement sites for J-1 waivers. Health care provider *sites* located in HPSAs or with MUA/P designations with a significant percentage of public payers such as MassHealth (Medicaid), Medicare and sliding fee or other charity care are also given priority.
- The facility or agency must have a history of recruitment difficulty over a lengthy period of time, or an unusual circumstance or special need for the candidate or position the J-1 physician will be filling. Recruitment effort of less than six months is generally not considered a lengthy period of recruitment for this program.
- DPH will prioritize one physician applicant per agency. For agencies that wish to submit more than one application, please refer to the Multiple Applications from a Single Agency section below.

Physician

- Prior to employment, the physician must meet all medical licensure requirements for the Commonwealth of Massachusetts.
- The physician must agree to practice medicine full-time in the designated health care facility for a minimum of three (3) years and begin employment within ninety (90) days of receipt of the waiver.
- Physicians whose full-time practice sites are located in a federal Health Professional Shortage Area (HPSA) or Medically Underserved Area/Population (MUA/P) are preferred. Instructions for determining whether a site is qualified are included as Appendix A of this document. For exceptions, please refer to the Flex 10 Requirements section below.
- Physicians who provide primary care services are preferred. Primary care is interpreted to include allopathic and osteopathic physicians who are trained in, and will practice, internal medicine, pediatrics, family practice, obstetrics-gynecology, geriatrics, and psychiatry. For exceptions, please refer to the Specialty Physician Applicant Requirements section below.
- Physicians who can speak a language other than English while providing patient care are also given a preference in scoring, so long as the application documents that the language is spoken by a significant proportion of the underserved population in the proposed practice community.

If an agency/physician does not meet the eligibility criteria the application will not be eligible and it will not be supported by DPH.

Multiple Applications from a Single Agency

DPH will prioritize one physician applicant per agency, per Conrad 30/J-1 Visa Waiver Program year. However, agencies may submit up to three (3) physician applications per agency or employer per visa waiver year. The above eligibility criteria will be in effect for each applicant physician, with the addition of the following requirements:

- Agencies or facilities submitting more than one application must coordinate all applications through one identified facility contact that is known to the DPH as such.
- Agencies or facilities submitting more than one application must clearly prioritize (rank order) all applications submitted.
- Among applicants from the same agency, DPH will prioritize applicants that have practice sites in different counties or large geographic regions.

Agencies submitting more than three applications per visa waiver year will have applications in excess of three returned to them unscored. The lowest priority applicants, as determined by the agency (or, if not prioritized by the agency, as determined by DPH) will be returned.

Flex 10 Slot Requirements

The Conrad 30/J-1 Visa Program legislation authorizes up to ten (10) Flex slots to place physicians in practice sites not located in a federal shortage area if documentation is provided to demonstrate that the facility serves patients who reside in one or more federally designated shortage area or meet other unusually high-need criteria determined by DPH. While the Massachusetts Conrad 30/J-1 Visa Program prioritizes certain safety net facility types, there are instances of high need in other areas so Flex applications are considered on a case-by-case basis. The applicant facility or agency should request the Flex slot in their request letter to DPH.

In order to be considered for a Flex slot, applicants must meet one of the following criteria:

- Document that greater than 30% of the patients served by the site reside in a HPSA or MUA/MUP.
 - The applicant facility must provide a patient of origin study that includes patient ZIP code data for a full year. The data must be presented in a table that indicates the number and % of the site's patients that reside in each relevant nearby HPSA/MUA/MUP. If the physician will be practicing at more than one site, documentation greater than 30% of patients served must be provided for each practice site.
- The practice site is in one of the non-rural high-needs communities identified in the Health Care Workforce Center's Statewide Community Health Needs Assessments, 2016. These communities are Brockton, Chicopee, Fall River, Holyoke, Lawrence, Lynn, New Bedford, Southbridge, Springfield, and Webster.
- The practice site is located in a rural community that meets the Massachusetts State Office of Rural Health definition of rural. Please see <https://www.mass.gov/service-details/state-office-of-rural-health-rural-definition> for a definition and listing of rural communities in Massachusetts.
- The physician will practice in a public sector, non-federal facility providing health care such as a public sector hospital or state correctional facility.
- There is an unusually high need for that provider that is more than what is typical in our state for that provider type, or similar areas of the state, due to an unusual circumstance, unusual barrier, or very special or unique vulnerable underserved population.
 - Specific descriptive information and supporting documentation must be provided for this criterion.

Specialty Physician Applicant Requirements

DPH will, at its discretion, support requests for placement of physicians who are currently enrolled in or have completed a subspecialty or non-primary care fellowship. Applications to support a specialty physician must provide detailed descriptive information and actual data that demonstrates the need for the physician and specifically identifies how the specialty physician will address the needs of the community and reduce wait times for that specialty.

Teaching and Research

DPH does not support waivers for physicians who are exclusively doing research, teaching, or performing other non-patient care activities. The goal of the Massachusetts Conrad 30/J-1 Visa Waiver Program is to increase direct-to-patient primary care services and some direct-to-patient care specialty services. Researchers and educators whose primary activity is not direct-to-patient care do not meet the Massachusetts Conrad 30/J-1 Visa Waiver Program definitions of providing direct patient care services.

Transfer Requests

In certain extenuating circumstances it may be necessary or appropriate for a change in work site or employer to be initiated during the three-year contract period. DPH requires that all transfer requests be submitted in writing to the Health Care Workforce Center prior to any such change, in order to ensure continued support for the move or change of worksite. In particular, the physician must continue to provide care to an underserved population in a federally designated underserved area, or if approved, Flex site. Failure to notify the Health Care Workforce Center and seek continued support from DPH in advance may result in DPH not supporting future J-1 visa waiver applications from that employer.

The next section outlines the three-step process of the Conrad 30/J-1 Visa Waiver application in Massachusetts, including details for submitting an application.

Three-Step Conrad 30/J-1 Visa Waiver Application Process

Step 1: Apply for Case File Number.

Prior to application for a J-1 visa waiver, the U.S. Department of State (DOS) requires that the physician/applicant complete an online data sheet DS-3035 application. Instructions on how to complete the online DS-3035 application are at: <https://j1visawaiverrecommendation.state.gov/>.

Completing the application online will reserve a case file number for your application and generate a bar coded data sheet which is required in order to process your J-1 Visa Waiver recommendation application. This case file number must appear on every page of the application packet submitted to DPH.

DPH will only review completed applications that have an established case file number.

Step 2: Submit the required documents to the Massachusetts Health Care Workforce Center.

The following documents should be submitted collectively, and in the order indicated, to the Health Care Workforce Center as one application packet. A checklist of the necessary items, and the order in which the packet should be compiled, is included as Appendix D. **The case file number must appear on every page of the application packet.**

Submit one (1) original and one (1) copy of the entire waiver request package to:

Silvia Banos-Aguayo, Health Care Workforce Center
Massachusetts Department of Public Health
250 Washington Street, 4th Floor
Boston, MA 02108

1. APPLICANT INFORMATION SHEET

Complete the Applicant Information Sheet found in Appendix B.

2. EMPLOYING FACILITY OR AGENCY REQUEST LETTER

The facility or agency must provide a request letter from the chief administrator that includes the following:

- a) A request that the Massachusetts DPH acts as an interested government agency and supports a waiver for the J-1 physician, to the U.S. DOS. It should indicate that the place of employment where the physician will provide services is located in a currently designated Health Professional Shortage Area (HPSA) or Medically Underserved Area/Population (MUA/MUP) and identify the shortage designation area by number and type, OR indicate that the application is for one of the Flex 10 slots. If this application is for a Flex 10 slot, the application must document how the applicant meets one of the criteria outlined in the Flex 10 section above. Instructions for determining whether a site is in a qualified area are included in Appendix A.
- b) A description of how the physician's services are required and in the public interest.
 - Describe the facility's mission, services, and target population.
 - Describe the current medical or mental health care needs of the underserved populations in your area.
 - Describe how the J-1 physician's qualifications and proposed responsibilities will improve access to medical or mental health care services in your area for the underserved population.
- c) If the applicant physician speaks a language other than English, document the proportion of the community that speaks that language and why it is important to have patient care provided in this language in this community.
- d) If the applicant physician will not be providing primary care (defined as internal medicine, pediatrics, family practice, obstetrics-gynecology, geriatrics, and psychiatry), include a separate statement in support of a specialty physician applicant that includes:
 - Specific information on how the population served will benefit by placing that physician at the employer's selected practice site such as: culturally competent care, reduced significant travel or wait times for patients, address impending physician retirements, etc.
 - Data documenting the shortage of physicians in this specialty/fellowship in the particular community and statewide.
 - Average waiting time for a non-emergency patient visit for that specialty in that area.
 - The percentage of MassHealth (Medicaid) and other publicly insured, Medicare, and uninsured patients expected to be seen by the specialty physician.
- e) The employment responsibilities of the J-1 physician.
- f) Statement that the facility or agency is unequivocally offering the physician full-time employment for at least three (3) years (see also #5 Signed Employment Contract).
- g) Statement that the facility or agency participates in MassHealth and complies with the regulations governing MassHealth; accepts Medicare; and accepts patients participating in Commonwealth Care and Commonwealth Choice programs, provides care regardless of the patient's ability to pay a fee, and has a sliding-fee scale. The sliding-fee scale should be based on the patient's ability to pay a fee. Providers may establish any number of incremental percentages or discount pay class as they find appropriate and must at a minimum address those patients who are at or below 200% of the Federal Poverty Level. For more information on the current U.S Department of Health and Human Service Federal Poverty Level guidelines, go to: <https://aspe.hhs.gov/poverty-guidelines>. Include the sliding fee scale implementation plan, and public notice, as well as the agency's written commitment to the use of the sliding fee scale.
- h) Describe in detail the employer's longer range retention plan for trying to keep this physician with the employer beyond the three (3)-year obligation.
- i) Statement that the facility and/or agency will comply with the J-1 visa monitoring activities. See Appendix E for a copy of the monitoring form. These reports are due in January and July of each year. These reports are required for each J-1 physician practicing under a waiver to ensure the J-1 physician continues to practice in a medically underserved area in Massachusetts for three (3) years. The employer is responsible for completing the bi-annual monitoring form and sending it to the Health Care Workforce Center by the due date. Failure to comply with reporting requirements may result in DPH refusing to accept future J-1 visa waiver applications from that employer.
- j) Statement that the facility or agency will notify the Health Care Workforce Center in writing, at least two (2) weeks in advance, if the J-1 physician will no longer be employed full time at the facility during the three (3) year period.
- k) Dates and nature (physician specialty) of all previous use of J-1 visa waiver physicians and the placement site(s), in the previous three (3) Conrad 30/J-1 Visa Waiver Program years. Include retention information, such as if the physician completed the contractual obligation or not, if the physician resigned or remained in her/his position, or if the physician remained for longer than the minimum contracted agreement.

3. DATA SHEET DS-3035 AND CASE FILE NUMBER

Submit a legible photocopy of the completed U.S. DOS Waiver Review Application Data Sheet DS-3035 and case file number as received from the U.S. DOS.

4. COPY OF FRONT AND BACK OF I-94 ENTRY AND DEPARTURE CARDS

5. US DEPARTMENT OF HOMELAND SECURITY FORM G-28, NOTICE OF ENTRY OF APPEARANCE AS ATTORNEY OR ACCREDITED REPRESENTATIVE (when applicable)

6. SIGNED EMPLOYMENT CONTRACT

a) Include a completed, dated, employment contract signed by the physician and the executive director/CEO of the health care agency stipulating the following:

- Name and address of the health care site(s) and the geographic area(s) where the physician will practice.
- Physician agrees to practice medicine for a minimum of 40 hours per week providing clinical care only, for a minimum of three (3) years at the practice site(s). Clinical care can include paperwork and phone calls related to patient care.
- Physician agrees to begin employment within ninety (90) days of receiving a waiver and agrees to continue to work in accordance with federal and state visa waiver guidelines at the practice site(s).
- Physician's annual salary, showing that the physician is receiving a competitive salary.

The employment contract shall not include a non-competition clause or any other provision that limits the J-1 visa physician's ability to remain in the area upon completion of the three (3) year contract.

b) The employing agency and the practice site(s), if different from the employer, must submit a written statement that they will make every reasonable effort to enable the J-1 visa physician to practice in accordance with these policies.

6. SIGNED STATEMENT OF AGREEMENT

The physician must submit a signed and dated letter stating that the physician:

- a) Agrees to "meet the requirements set forth in section 214(l) of the Immigration and Nationality Act."
- b) Will begin employment at the facility within 90 days of receiving the waiver.
- c) Will work at the facility for at least three (3) years.

7. PHYSICIAN ATTESTATION

The physician must submit an attestation using the sample language below:

I, _____, hereby declare and certify, under penalty of the provisions of 18 U.S.C. 1001, that: (1) I have sought or obtained the cooperation of the Massachusetts Department of Public Health which is submitting an IGA request on behalf of me under the Conrad 30/J-1 Visa Program to obtain a waiver of the two (2)-year home residency requirement; and (2) I do not now have pending, nor will I submit during the pendency of this request, another request to any U.S. government department or agency or any equivalent, to act on my behalf in any matter relating to a waiver of my two-year home residence requirement.

8. COPIES OF ALL IAP-66 /DS-2019 FORMS

9. CURRENT COPY OF THE PHYSICIAN'S CURRICULUM VITAE AND MASSACHUSETTS MEDICAL LICENSE

Include a current copy of the physician's curriculum vitae and a copy of his/her Massachusetts medical license or the first page of the medical license application.

10. PHYSICIAN PERSONAL STATEMENT

Signed and dated personal statement from physician regarding his/her reasons for not wishing to fulfill the two-year home country residency requirement.

11. LETTER OF "NO OBJECTION" FROM HOME GOVERNMENT (when applicable)

The J-1 visa physician should obtain a letter of "no objection" from his/her home country ONLY IF the J-1 physician had medical education or post-graduate training in the United States FUNDED BY the government of the graduate's home country. If a J-1 physician applicant requires a letter of "no objection," the U.S. Department of State requests the letter clearly state that it is pursuant to Public Law 103-416.

12. EXPLANATION OF OUT-OF-STATUS (when applicable)

13. SIGNED AFFIDAVIT

Appendix C: signed and witnessed affidavit stating the J-1 physician and the agency/facility accept public payers, offer a sliding-fee scale, and are not being investigated for fraud or under any professional sanctions.

14. RECRUITMENT EFFORTS

The facility or agency must have a history of significant recruitment difficulty or an unusual circumstance or specific special need for the candidate or position that the J-1 physician will be filling. Recruitment effort of less than six months is generally not considered a lengthy period of physician recruitment for this program. Provide a short summary of the recruitment difficulty, steps taken to recruit, and how long the position has been vacant (number of months or years, or since a certain date). This summary should include when recruitment activities began for the position, recruitment history and timeline, a list of placement agencies or other recruitment resources engaged to recruit for the position (e.g. list of where position postings have been made), how many inquiries or applications have been submitted, salary offered, and whether the position has been offered to any U.S. physicians. Do not include copies of advertisements in your application packet to the Health Care Workforce Center.

15. LETTERS OF COMMUNITY SUPPORT

To provide some evidence that the J-1 physician will have support and acceptance in the community, all applications must include at least two (2) support letters from non-applicant community-based local agencies or a referring provider from the community served. These letters must state that the J-1 placement is critical and will help alleviate health care access problems for the underserved population of the community.

16. PHYSICIAN'S JOB DESCRIPTION – Provide a copy of the J-1 physician's more detailed job description.

17. DOCUMENTATION OF NONPROFIT OR PUBLIC AGENCY STATUS

18. CONRAD 30/J 1 VISA WAIVER PROGRAM SITE PAYER MIX INFORMATION

Complete Appendix F. The payer mix information should be from agency billing or financial system data, or for FQHCs from the annual UDS Report. There is no need to complete the form if the practice site is a correctional or detention facility.

Step 3: Application packet and support letter is sent to the U.S. Department of State.

After a careful review and scoring of all application materials, DPH will make a decision on supporting physicians for J-1 waivers. For those applicants who are supported by DPH, the entire application packet, including the support letter, will be sent to the U.S. DOS by DPH. A copy of the support letter will also be sent to the attorney who submitted the application packet who will share a copy with the employer and the J-1 physician.

Once the application is sent to U.S. DOS, DPH will only be involved in responding to U.S. DOS questions regarding items in the application packet. Application processing at U.S. DOS generally takes 6-8 weeks. DPH will have no additional information regarding the status of a candidate unless a specific issue or question arises from the U.S. DOS. Candidates can check their status at the U.S. DOS through the following website:

<https://j1visawaiverrecommendation.state.gov/>

A support letter from DPH is an essential step in the process, but does not ensure that a candidate will receive a waiver. The U.S. Citizenship and Immigration Services make the final determination about all J-1 visa waiver applications.

Physicians must also obtain an H-1B visa in order to begin employment. The DPH plays no role in this part of the process.

Appendix A: Instructions for Determining Practice Site Federal Designation Status

Find Shortage Areas at <https://data.hrsa.gov/tools/shortage-area>.

On this page (<https://data.hrsa.gov/tools/shortage-area>) you can:

- Use **HPSA Find** button to search HPSAS by State or County.
- Use the button labeled **Shortage Areas by Address to search by address**.
- Use **MUA Find** button to search for MUAs and MUPs by State or County.

Other Relevant Information

HHS Exchange Visitor Program

The U.S. Department of Health and Human Services (HHS) recently expanded its site eligibility requirements for waiver sponsorship. HHS currently accepts applications for primary care physicians employed in Federally Qualified Health Centers (FQHCs). This program expansion now includes other site types, hospitals and private practices located in a HPSA with a score of 7 or higher. Primary care physicians applying for this program may now work in outpatient or inpatient settings, or a combination of both. For more information on this program please visit:

<https://www.hhs.gov/about/agencies/oga/about-oga/what-we-do/exchange-visitor-program/index.html>

Appendix E Conrad-30/J-1 Visa Waiver Monitoring Form: Physician, Employer, & Practice Site

The monitoring form is used to report on current employment, practice site and contact information about the J-1 visa waiver physician and is due bi-annually (January and July) for the prior 6-months. The completed form must be submitted until the physician's three (3) year commitment is complete. Failure to submit biannually will result in the physician and employer being in noncompliance with program policies.

Complete this form electronically, print and sign, and send as a pdf file to Silvia.Ramos-Acunyo@mass.gov

As a reminder, any changes in location, dates, or time spent in practice that impact the 3-year contracted commitment, must be reported immediately by the employer, to the Health Care Workforce Center.
